Assessore alle politiche per la salute, Regione Emilia Romagna

Dr. Vanda Randi
Director Centro Regionale Sangue, Regione Emilia-Romagna

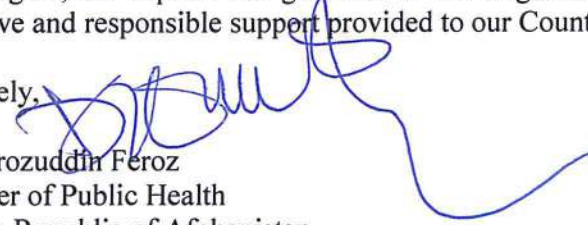

Subject: Donation of factor VIII by Regione Emilia Romagna for the Hemophilia Center of Kabul

The Ministry of Public Health of the Islamic Republic of Afghanistan would like to thank Regione Emilia Romagna and all the local Blood Donor associations for their generous donation of plasma factor VIII, highly needed for the care of our hemophilia patients.

The Ministry of Public Health hopes that this will be the beginning of a long-lasting collaboration and that through this partnership it will be possible to facilitate the access to factors and to a safe and effective treatment, guaranteeing a future for our patients.

Once again, we express our gratitude to the Regione Emilia Romagna for the very efficient, effective and responsible support provided to our Country for many years.

Sincerely,

Dr. Ferozuddin Feroz
Minister of Public Health
Islamic Republic of Afghanistan
